

Halls Head Primary School Board Report 2019

It is with pleasure that I present the 2019 Halls Head Primary School Board Annual Report and reflect on the activities of the Board over the last twelve months.

Members of the Board include the Principal, a teaching staff member, a community member, and parents. This year, I had the privilege of being elected the School Board Chairperson for 2019 and welcomed the opportunity to work alongside this great group of contributors during a very successful period.

In many regards, 2019 was a year of incorporating our new school branding. The school has had great success in the rollout of the rebranding strategy including a new logo, school motto, signage and uniforms and it was wonderful to see the positive feedback from the entire school community. The school, children and staff all look incredible and it was a privilege to see the excellent outcome of the rebranding efforts.

Serving on a School Board is a privileged opportunity to contribute and create better outcomes for the School, students, staff, parents and community. Members of the Board generously give their time and I thank them for their efforts and dedication.

School Business Plan

The Business Plan is presented to all new members of the Board. The Board delivers on the School Business Plan through considering student results and through parent surveys. The Business Plan is regularly revisited to ensure the Board is meeting our targets.

Board Initiatives

School Brand – Successful rollout and consolidation of the school rebranding

Board Awards – Nominees are put forward for any staff member at Halls Head Primary by the school community (ie. parents/staff). The Board selects up to three nominees for recognition based on these nominations. We had a great number of nominations this year for very well deserving staff members.
